March 15, 2017

Dear Neighbors,

As we continue to dig out from Tuesday's storm, I ask for your patience and cooperation while we work to clear the streets.

Starting tonight, we will begin removing the snow from Main Street in order to get our Main Street businesses accessible again. Parking in our municipal lots will continue until we lift the street parking ban. Because of the depth of the snow, streets will be narrow. Our highway department will continue working in the days ahead to widen the streets. Please use extreme caution when driving.

Updates will be posted on the city's website [www.cityofbeacon.org](http://www.cityofbeacon.org)

I want to thank everyone for their patience during this temporary inconvenience. I understand present conditions are frustrating but we are doing the best we can to return our city to normal.
