

WHAT IS CCA? ... and Why Should I Care?

If you live in **Beacon, Cold Spring, Fishkill, Marbletown, Philipstown, or Poughkeepsie**, this Program could change your electric bill.

Hudson Valley CCA

RENEWABLE HIGHLANDS

Community Choice Aggregation (CCA) allows New York homes and businesses to **join together** to seek less expensive, cleaner electricity through their city/town/village leadership. The communities identified above are exploring this opportunity together. **Customers supplied by Central Hudson will be automatically enrolled and their electricity supplier will change to the reputable company selected by the participating communities.** Customers may freely opt-out or leave the Program at any time. Everyone will remain a Central Hudson customer for delivery, repair and billing.

Come to a Public Q&A Session to learn more
